CUMULATIVE INDEXES

Cumulative indexes are available for *Physics Abstracts*, *Electrical & Electronics Abstracts* and *Computer & Control Abstracts*, for both authors and subjects. These cumulations generally cover a period of four years, with the exception of *Computer & Control Abstracts* where the initial volume covered the period 1966-68. The table below shows the prices and periods for the two types of cumulative index.

OTHER INSPEC SERVICES

SDI

(Selective Dissemination of Information.) This is a service individually tailored to the requirements and interests of the engineer or research worker. Details of information relevant to the interest profile of the individual subscriber are selected from the data being processed for the INSPEC database. Information is dispatched weekly on 150 mm x 100 mm (6" x 4") cards.

TOPICS

This is an SDI service based on standard profiles. There are over 70 subjects covering high-activity areas of research and development. This is an inexpensive card service designed to alert engineers and researchers to the availability of literature within their subject area.

MAGNETIC TAPES

Tapes containing all the information included in the INSPEC publications are issued twice monthly. They enable the larger research and development organisations to produce their own internal information and current-awareness services.

IEE PERIODICALS

The Institution of Electrical Engineers has long been an important publisher of primary periodicals and conference publications, and, in this respect, makes a major contribution to the science and engineering literature of the world.

Proceedings IEE

This monthly periodical contains significant and original contributions in electrical engineering, electronics and control engineering. A particular feature is the annual IEE Reviews issue, which contains specially commissioned articles written by specialists that review topics in depth for the professional electrical and electronics engineer.

Electronics Record, Power Record and Control & Science Record

The Records are quarterly periodicals containing papers covering the fields of electronics, power engineering, control, automation, electrical science, education and management, reprinted from the three previous issues of the Proceedings IEE.

Electronics Letters

A fortnightly international publication specially designed to provide rapid publication of short communications by research workers and development engineers in electronic science and engineering, radio and automatic control.

Electronics & Power

This wide-ranging technological magazine, published 11 times a year, contains industrial news and new-products information, together with articles on technology, management and other topics likely to interest, and be of use to, the engineer. The subscription also includes IEE News.

IEE Journal on Microwaves, Optics and Acoustics (MOA)

Bimonthly journal with detailed coverage of microwave, optical and acoustic engineering of systems, components and devices of a size comparable to or greater than the wavelength of operation.

IEE Journal on Electronic Circuits and Systems (ECS)

Bimonthly journal covering original concepts, theory and analysis in circuits and systems including computer-aided design, communication, computers and radar.

IEE Journal on Solid-State and Electron Devices (SSED)

Coverage is given in this bimonthly journal to the fundamentals and physics of bulk-effect, m.i.s., optoelectronic and novel devices along with their design, limitations and performance.

IEE Journal on Computers and Digital Techniques (CDT)

This new quarterly journal is devoted to digital systems in the broadest sense, covering the structure, design and technology of the systems themselves and the subsystems and components from which they are built.

IEE Journal on Electric Power Applications (EPA)

The aim of this new quarterly journal is the dissemination of technical knowledge on all aspects of the utilisation of electric power.

For full details of all IEE primary periodicals, conference publications and books, as well as information on special prices for IEE members, please write to:
